Activities Report 2015 - 2016

PROJECT OF WELFARE OF SEMI-ORPHAN CHILDREN

COF is committed to bring joy and hope to orphan and semi-orphan children's life through supporting and caring their day today life. So that we are concentrating the request of the dedicated people who have the vision to function the orphanages but struggle to provide the needs of the children by their own. A regular follow-up and financial assistance is given to them. This brings real joy and hope to the needy children.

This project was started from 2008 onwards these children are taking care by COF since it started. we have supported 13 children when it started but the no. of children which are being given financial assistance in this project for this accounting year is 11 and the other two were completed their studies and settled with jobs, all of the beneficiaries are boys. This project is taken care by Mr.Selvin and Mr.Ravi. They are pastors these children belongs to their church and villege base .Among these 11 children 5 children are taking care by Mr.Ravi and 6 children are taking care by Mr.Selvin, from them some of the children are orphans and some are semi-orphans. These semi-orphan children might have lost their father or mother. **These children are not living with their care takers (Ravi and Selvin); but rather they are living with either their mother or father or with their relatives. The care takers will visit them every now and then to make sure that they are properly taken care and provided by with whom they are living. Financial assistance is given for the education and provision of the children.** When they complete their Schoolings, we support them to do their higher studies; it may be technical course or professional course or any degree according to their talents and ability. They will be supported until they find a job. Yet now 2 children had completed their studies and working now, one Sathish is working at Saudy Arabia as a AC Mechanic and another one working as a Electrician at Kerala and the remaining 11 are continue their studies with our help.

Orrisa:

As well in Odissa we have 23 children in our care.They have been given free shelter and schooling at Kings public school run by COF .These all project has been taken care by Mr.Kanindra Raju and his team.

WELFARE OF CHILDREN - CHILDREN HOUSE OF HOPE (CHH)

This is an ameliorative service being given to the children through C.O.F. This service is named as the CHILDREN HOUSE OF HOPE (CHH). CHH is a free evening tuition centers established in the villages and slums of India. Its main purpose is to provide the physical, social, educational and moral needs of village and slum children through every possible way.

The parents of the village and slum children are illiterate; they were not able to help their children in their home works and studies. And they do not have awareness on the importance of basic education; because of this they stop sending their children to School and they send their children for coolie works, which they feel better for their children as it adds an additional income to the financially suffering family. The volunteers/tutors from these centers help the Children in their home works and studies. They also visit the parents and give them awareness on the importance of the education. Because of the regular follow-ups given, the school drop outs rate has come down and many parents send their children to school willingly than before. We give the children nutrition enriched food/snacks twice or thrice a week. We provide hygiene supplies to the children. As well we conduct medical camp and partially we supported for medical support to the children. We also provide notebooks, stationeries to the needy children. Our wish is to see

every underprivileged child from the villages and slums to go school in spite of their families' financial poverty.

WELFARE/EMPOWERMENT OF WOMEN - ARISE AND SHINE PROJECT (ASP)

C.O.F is concerned about widows/women and their family.. Being the wives of drunkard husbands they suffered throughout their lives they struggle. Through Arise and shine program, C.O.F work with a widow's family for at least three years.The project started from 2007 and every three year new group of widows will be selected and been supported .This project is monitoring under the leadership of Beula Harlin Bai.

In this accounting year C.O.F supports 27 widows from Malkangiri of Orrisa.And this project was managed by Pr.Raju and his wife Joythi.The 27 widows are supported 800 rupees every month ,they are guided to use this monthly support to their children education other daily needs .

And then they are taught to generate their own income through various projects like animal husbandry,business,agriculture and self-promoting jobs like tailoring, painting etc., according to their talents and knowledge.And also everymonth they will be gathered in a place and they were taught to live a healthy and happy life,they were taught hygiene ,savings,as well psychological counselling been given.Yearly once we conduct medical camps for these beneficiaries .As well we have given medical support for needy beneficiaries.

And then these women have no proper secure houses and in the time of cyclone it was severely affected,so that we have build 16 new houses and 11 houses were repaired.**Name of the Beneficiary.**

Educational Assistance

We have an aim and service to develop the underprivileged children and youth to get a good future through education. Many of our children in this project is from Children house of hope and Arise and shine of widows projects, have no proper awareness and guidance about higher studies, as well they have no enough financial help from their parents to continue their studies or skill trainings to find decent job. So that COF select such children from our center and gave proper guidance to continue their education after completing their schooling 10th and 12th standard.

The elected students study fees will be provided fully or partially (30%, 50% and 60%) from COF funds, we encourage students to study job oriented courses like Technical course, Trade training, Engineering and other skill oriented training depend on the vision and talent of the children. Also we motivate their parents to contribute according to their ability as well we encourage students to do part-time jobs and earn to cover their

additional needs. This gives more confidants for the students once they complete their studies they could easily make up their life and they stand on their own feet. Through this project already few students are completed their studies by our support and they were settled with jobs in India as well abroad. As a token of gratitude few beneficiaries turn as contributors and extend their support to new children. Every year we elected new students and continue our support to get proper higher studies this enable a bright future for our youth from different projects of COF.

Old Aged Home (OAH)

Old age home seeks to provide peace and joy by caring of the aged people in terms of their physical, spiritual and social needs; and the home will take care of their hardships, loneliness and fear in their aged days. We believe that in providing an environment of love, acceptance, security and a sense of belonging to the old, he or she is helped to experience life normally.

We accommodated 6 elderly people In our oldage home at 2015 -2016. Three woman and three men,they are Ms.Gnannammal-96 Years,Ms.Jaya Baby -73 years Mrs.panchami-63,Mr.Sam Daniel-75,Mr.SelvaRaj-78.Mr.veera Kumar-72 .

Among them Ms Gannammal died on May-2015 , then Mr.Selva Raj died on October-2015 and then Mr.Sam died on November-2015. After that it is continuing with the remaining three then two more woman were accommodated there in 2017.

Woman Empowerment projects

COF is committed to empower the women those who are destined to look after their family. Such women are being given some training such as tailoring training so that they could become a tailor and they could earn money and feed their family themselves. There were 15 woman was given tailoring training from Servaikaran Patti of Dindigul district , 7 woman were given training at Kanyakumari Dist and 13 woman were given training at Ramagundam of Andra.

House for Homeless

A house is really essential for a family to sustain from the calamities as well as to overcome their life struggle. COF has constructed simple small 400 sq. feet houses for people who were living in the worst huts and tents; and not capable to repairing it or building a house their own.

In 2015 we have selected poor widows from Oddissa. And we constructed 16 houses and 7 house were repaired. It was mainly done because most of these people's house was damaged by heavy rainfall.

Multipurpose hall for social workers

COF has constructed multipurpose halls for the poor pastor's family. The requirement of a multi hall for pastor's family in a village is very essential for him to conduct the church service on Sundays and to conduct CHH during the week and the Pastor's family can reside in the same hall. The multi hall is designed in such a way that it can be utilized for any purposes.

Mainly the multi hall was build at the village where our social workers are working and this house is benefitted to not only for the residence of the family it helps to conduct the free tuitions (CHH) for the needy children from the village as well it helps to conduct widows meetings, and more for the farmers ,we can use such halls for conduct seminars of COF.It will bring real fruit in the society and the money that is invested to build such a multi hall will have its worth. The no. of such constructed multi halls is 10.

Social worker's welfare

COF is committed to develop the downtrodden pastors' life style through working like a bridge to have fellowship with brother hood missions and organization by providing a monthly support for poor independent pastor's family and their children's education with a period of three years. We guide and teach them to have income generating programs by using this money like chicken farm, goat farm, if they have land we encourage them to cultivate, cow farm as well small scale business depend on the availability and talent of the Pastor. Within these three years' time, they are practicing how to earn money and how to stand on their own feet to provide his family.

In 2015 there were 14 pastors from Orrisa are in this projects and it really helps them a lot.

Here are the beneficiaries name and their project detail:

1. Anand Pusuru: Started a Kirana Shop (Grossaries items are sold here). His wife takes care of the shop while husband gets from the market. Monthly they are getting Rs.2200/-. 50% of the amount is invested in purchasing other materials for the shop and 50% is used for the family surving.

16. Victor Chinam: He has started Petty Shop & his monthly income Rs.2200/-. He is using the amount make his shop big.

Farmer's Empowerment through Eco-farming Practices and Agro-based Management

COF gives special concern for the improvement of agriculture and the development of small and marginal farmers, tenant farmers and landless coolies."One report from

2008 claimed India's population is growing faster than its ability to produce rice and wheat.”¹ The production ability of India is declining every year. Various lands related and agro-operational issues affect small and marginal farmers, tenant farmers and landless coolies. This includes size of the land, wages, water availability, soil management, suitable seed availability, procurement of produce, preparation for next crop and elimination of chemical fertilizers and pesticides. The farmers are not aware of the new techniques and the right crop cultivation which is suitable for their land. Also the farmers are not economically strong enough to have all these facilities to have a better cultivation. Considering all these major issues we have introduced a program called Farmer’s Empowerment through Eco-farming Practices and Agro-based Management for the massive development of the agriculture and cultivation; and also for the development of the life of the farmers. And we have seen great response/results through this program. At first we have organized the farmers into a small group in every selected village called Co-operatives. And the first six months COF staffs worked with them and training was given by the

Agriculture experts on water management, pests and disease, soil and agriculture, fertility, new planting techniques, marketing strategy, awareness about co-operatives benefits. Then after that the poor farmers were given financial assistance of Rs. 20,000/- as capital investments to use for the cultivation such as buy healthy seeds, tools and fertilizers whereas the required cost for these needs has been estimated as Rs.25,000/-. The beneficiary’s contribution was Rs. 5,000/-. Through that they have bought the necessary instruments, healthy seeds, fertilizers and natural manure. The outcome was great and the benefits are being experienced by the poor and marginal farmers.

And then we found the farmers are struggling for water ,depending on rainy water is almost negative results moreover our beneficiaries are small land owners they even struggle for drinking water also so that we have supported to dig bore wells for the farmers. In 2015 we have dig 20 borewell. Here we have attached the list of the beneficiaries. We were supported 80 percentages of its total expenses and the remaining 20 percentage was contributed by the beneficiaries.

CHRISTIAN OVERCOMERS FELLOWSHIP

BOREWELL Beneficiaries Detail 2015-2016

1. Name of the beneficiary: Mary Stella

Husband name: Moses

Place: Chithiravilai

Children name: Gershon – BA 2nd year

Godson – 12th

Crops planted after bore-well installed: Banana, rubber, tapioca and coconut

Mary Stella is part of our farmer project and she is a member in our co-operative in Kollemcode. Mary Stella is a house wife. Her husband, Moses runs a small tea shop in the village. Moses work is only in the morning and evening. So, he and his wife Mary Stella do agriculture rest of the day. They used to fetch water from the nearby pond. During summer the water gets dried out and there are no water to water his bananas, coconut and rubbers. So, they used to get loss in their cultivation. Now they are happy, that they got a bore well and they have new hope they will do better in agriculture than before. Their 2 sons are very help full to them.

The family has extended its love and gratitude the sponsor

2. Name of the beneficiary: Jeya Pramila

Husband name: Jeeva

Place: Kaduvakuzhi

Children name: Shilpa – BA 2nd year

Jeya Stefy – 11th

Crops planted after bore-well installed: Banana, elephant gourd, chilly

Jayapramila was in our 3 year farmer project and she is a member of our agriculture co-operative, Kaduvakuzhi. Her husband works as a coolie. Since his income was not sufficient for the family and the daughter's education, the family was in need of an additional income. So, they decided to cultivate some crops in their field. When they started doing agriculture work, due to the lack of water they were not able to see the result. And now after getting a borewell they were happy and doing agriculture with more enthusiasm than before. Now they have a chicken farm and a goat.

Jeya Pramila, Jeeva and their 2 daughters are grateful to their sponsor.

3. Name of the beneficiary: Suji

Husband name: Delvin

Place: Kaduvakuzhi

Children name: Shijin – 8th

Jibin – 7th

Abisha – 5th

Crops planted after bore-well installed: Coconut, banana, and rubber

Suji is a house wife from Kaduvakuzhi village living with her husband and 3 children. She was in our 3 years farmer project. Her husband was a coolie worker. The family was doing agriculture in their farm land to get some additional income for the family. But due to the lack of water facility they were not succeeded. At this time they got a bore well and now they are very happy. They are hoping for a good income from their cultivation.

The family is very thankful to their sponsor.

4. Name of the beneficiary: Baby

Husband name: Thankayan

Place: Viralivilai

Children name: Mabel - Married

Jayan – Completed BE, looking for job

Crops planted after bore-well installed: Banana and coconut

Baby was in our 3 years farmer project. She is working as a coolie in a cashew nut factory and her husband Thankayan is doing agriculture. They have a daughter, Mabel, who got married; and a son, who completed his studies and looking for a job. At present he is helping his father in agriculture.

Previously, Thankayan worked as a coolie in the constructions. And he was not able to do hard works, so he decided to do agriculture. But, he needs to fetch water from the pond to water his bananas. During the rainy season, there was water in the pond and the water got dried up during the summer. This situation caused trouble to the family. And they got bore well through COF and now after the bore well they are happy. They have testified that they get good income from the cultivation.

5. Name of the beneficiary: Moses

Wife name: Roselet

Place: Tholayavattam

Children name: Jemi – 8th

Crops planted after bore-well installed: Banana and Rubber

Moses is serving the Lord in Tholayavattam village as a family. He was in our 3 years farmer project. Inspired by our teachings and projects, he also started to do cultivation in the land nearby his church. He has planted banana, rubber and vegetables. But, without water he did not see any development. So, he requested for a bore well to COF. And when he got bore well he is doing the cultivation work very happily and they have started to see a development in the cultivation.

Moses family is very grateful to the sponsor. Moses also has submitted a request that, the village where his house situated doesn't have enough water facility. So, if they place a water tank in front of the church, the villagers can take water and they can use it.

6. Name of the Member : Santhi

Husband Name: Krishna kumar

Place: Merku Pandaravilai

Children Details: 1. Aji - Engineering

2. Ajish - Engineering

3. Ajutheee – 12th

Santhi was a house wife and her husband was a coolie worker. They have 3 children. The children of the family were growing up and the children started to do their higher studies. At this time the family came to realize that, they need to increase their income. So, they gave concentration on agriculture. But to increase their cultivation they needed water. Now they have water and they hope they will get an income through their cultivation.

7. Name of the Member : Vijayakumari

Husband Name: Rameshkumar

Place: Sastankarai

Children Details: 1. Abhinesh – 5th Class

2. Abhivikram – 4th Class

Vijayakumari was in our 3 years farmer project. Her husband was working as a coolie worker. She used to do banana cultivation in her farm land. And due to the lack of water, they were not able to see any growth in their cultivation. And they got bore well through our bore well project. Now they water their banana daily and they also planned to form a vegetable garden in their land.

The family is very thankful to the sponsors for the bore well.

8. Nirmala & Jesus:

Marital Status: Bachelor

Place: Melaperuvilai

This is the church in a village named Melaperuvilai. There were few families attending the church. Their big problem for the years is no drinking water for them. To fetch the drinking water they have to walk one and more kilometers. Nirmala is pastor woman there in the church that was attend our agriculture seminar and heard about our projects. She constantly request us to help his church and village's they have not enough finance to afford a own borewell. After a long years to help few families for drinking water we contributed this borewell. Now they can fetch their drinking water in this borewell. They were so happy and thanks the donor as well the church itself pray for the sponsors.

9. Name of the Member : Jayakala

Husband Name: Kumar

Place: Thipiramalai

Children Details: 1. Bislin – 8th

2. Bislin - 6th

Jayakala's husband is a coolie worker. They were doing agriculture in their field, but there was no development due to the lack of water. Now they got water and they have planted banana and they are hoping for a profit.

The family is grateful to the sponsor.

10. Name of the beneficiary: Dowell Sekhar

Wife name: Mini

Children Details: 1. Jeffy D Martin– 4th Class

2. Jebiso D Martin – Kinder Garden

Place: Siluvaipuram

Crops planted after bore-well installed: Banana and tapioca

Dowell sager was a Mechanic. Before 4 years, he met with an accident and was not able to do his job any more. At that time he joined in our 3 year farmer project and he was actively involved in agriculture in the land, where his father was doing cultivation. His father was a good farmer and after his death no one was there take care of their land. Now after the accident he has been involving in agriculture work. Since there was less water facility, they were not able to see a profit in the agriculture. Now they got bore well and enough water,

along with his wife he has planted banana, coconut, and also a lot of vegetables like snake guard, tomato, cucumber and the family is eagerly waiting for the income.

Dowell Sekhar and his family are thankful to their sponsor.

11. Name of the beneficiary: Jayapaul

Wife: Sheema

Children Details: 1. Abi S Paul – 4th Class

2. Aani S Paul – Kinder Garden

Place: Kacherinada

Crops: Banana, Snake guard

Jayapaul is working as a coolie laborer in a brick factory. He was in our 3 years agriculture project. From his childhood, he was interested in agriculture. He got 40 cents of land and he has planted various crops in the garden. But, the problem is with water. He got pipe connection from the village administration (government). Water comes only thrice in a week, that water is not even enough for household use and due to that he was not able to water the plant regularly. So, there was no development in the agriculture. Now they got water and they started to cultivate banana in the land and they are very happy.

The family is very grateful to the sponsors for providing them support to install a bore well.

12. Name of the beneficiary: Selvaraj

Wife name: Omana

Children Details: 1. Santhya – Degree

2. Santhya – Degree

3. Santhya – Degree

Place: Kappukadu

Crops planted after bore-well installed: Banana

Selvaraj used to be a coolie worker and now he was not able to work as a coolie due to breathing trouble. His family was struggling financially. Then he started doing cultivation in very small level. And he wanted to develop the agriculture with the support of his wife and children. So, he requested for a bore well. They got bore well and now they

are doing a good cultivation in their land. The family is looking forward to get good yield from the farm.

Selvaraj and his family are very thankful to his sponsor.

13. Name of the Member : Steffy

Husband Name: Albin Xavier

Place: Kaduvakuzhi

Children Details: 1. A S. Akil – 12th

2. A S. Abin – 11th

Steffy was in our 3 year agriculture project. Her husband is a coolie worker. Steffy was a house wife. So, she decided to do cultivation in their land, and the teachings and the support from the agriculture project helped her in the beginning stage. Her husband and children also helped her. But, she was not able to succeed due to the lack of water availability. Now she got bore well and they have water and they got a hope to do better.

The entire family of Steffy is thankful to the sponsor.

14. Name of the Member : Jaspin punitha

Husband Name: Alex

Place: Kaduvakuzhi

Children Details: 1. A. Aswin – 9th

Jaspin punitha was in our 3 year agriculture project in Kaduvakuzhi village. Her husband is a coolie worker. The family was doing cultivation in their land and they were not able to see any development. They used to fetch water from the street pipe and they need to stand in a queue to get water. Even that was not sufficient for the use of their family. Due to this they were not able to see any development. Now they have water and they believe they will get good income from the next year.

Jaspin punitha has expressed their heartfelt thanks to the sponsor.

15. Name of the Member : Omana

Husband Name: Unmarried

Place: Siluvaipuram

Omana was a physically challenged woman. She didn't get married. She got a piece of land as inheritance from her family. Her desire was to do cultivation in the land. Since, she was not able to do work; she wants the help of laborers. Now she got bore well and with the help of laborers, she has planted banana and rubber in her garden. She believes that from onwards, she will get profit from

Omana is very thankful to the sponsor, who supported her to install a bore well in her land.

16. Name of the Member : Baby

Husband Name: Yesudhas

Place: Kacherinada

Children Details: 1. Ajin – Married

2. Ajitha - Married

Baby was in our 3 years farmer project. She and her husband are doing agriculture. Her son is working as a coolie driver and living separately with her wife. They did not have water facility in their garden and due to that they were not able to see any development in their agriculture. And they got bore well through COF and now after the bore well they are happy. They have testified that they get good income from the cultivation.

The family is grateful to the sponsor.

17. Mr.Seelan &Loyala:

They are doing farming for many years at their small piece of land.They have co-conut trees and seasoned banana's.If rain fails they cannot plants seasoned crops and that was the year they were suffered a lot for their income.They were from our Agrico-operatives and applied for the borewell.Now they are happy to have this because this is main resource fro their income now on they can earn a regular income.

Further they have daughter and married a man who works as labour and living 200 k.m away from them.

They have no support from their daughter as they are also earn a very less so they cannot afford them. In this situation this borewell helps them a lot to survive these family. They are waiting for the electricity, they have applied for it and soon they will get it then they can fix the motor will send you the pictures

18. Name of the Member : Danesh Kumar

Wife Name: Kala

Place: Keezhakalliyadapu

Children Details: 1. Kalesh Raksan - 3 years

2. Kalesh Raxhit 1 and half years

Bore well beneficiary Danesh Kumar with his wife Kala and children, Kales Raksan 3 years and Kales Raxhit 1 ½ year old. His mother and father are living with the young family.

Danesh Kumar was in our 3 years farming project. He is also in our Agriculture Co-operative. He had requested a bore well for his land from the very beginning he was with us to be able to see some development with his bananas.

He worked in Saudi Arabia for sometime but his boss did not pay his salary, so he came back with lots of debts. Now he is working as a coolie driver along with that he is doing banana and coconut farming but without water he could not see any development for his coconuts and bananas. His second job is working as a coolie driver but even with working hard there he can hardly manage to run his family. Now that they have water they have new hope and are encouraged to do their very best to bring up their agriculture.

The family is very grateful to the sponsor and expresses their heartfelt thanks.

19. Name of the Member : Qubert Jino

Husband Name: Jeba

Place: Ottapanavillai

Children Details: 1. Jefrit Smily – 2nd Class

2. Jefrit Sino

Qubert Jino is a coolie worker in Ottapanavillai village. He has a small piece of land and he wanted to do agriculture there. He has planted Spinach, chilli and brinjal(elephant gourd) in his land. He used to fetch water from the street pipe. He was using that vegetables for his house hold use. The income from his coolie work was not sufficient for his family's survival, so he thought for another income. He wants to cultivate banana, rubber and coconut in his land, so he can get an additional income. Now he has water for cultivation. But, they don't have electricity in the land and they have applied to the government for electricity and are waiting to get electricity.
